

SEO shouldn't be another job. So we turn it into a short list of decisions.

Xorventa SEO audits your site, tells you what to fix first, and writes the fixes from the business information you approved. You approve each change — or switch on automatic changes and let the safe ones apply themselves.

No setup fee. Free for 30 days. From \$39 a month.

This document is in two parts

PART ONE Why Xorventa SEO

Why this matters · One trusted source · See the issue, see the fix · Your numbers · What it costs · What it will not do

PART TWO How to set it up

Before you start · Add it · Connect Google and Bing · Run the audit · Approve the work · Keeping it useful

For business owners considering Xorventa SEO · September 2026

PART ONE

Why Xorventa SEO

What it does for your business, and what it costs.

WHY THIS MATTERS

SEO is the work that is always easy to postpone.

It never has a deadline. It scatters across four tools that each show you a different number. And when you do hand it to someone, it is hard to tell what actually got done. So it slides — while the page titles search engines show for your business stay wrong.

Xorventa SEO gives you a queue, not a dashboard.

- **It finds the gaps.** An audit of your site, turned into a list ordered by what matters most — not 200 warnings of equal weight.
- **It writes the fixes.** Drafts prepared from your approved Business Facts, so the wording is yours and not a template.
- **You decide on each one.** Approve, edit, or switch on automatic changes for the ones that qualify.
- **It reports in plain language.** A monthly summary that says what changed and what it means.

ONE TRUSTED SOURCE

Written from the facts you already approved.

Xorventa SEO works from your account's Business Facts — you do not need a chat window for it. The same approved set behind your website assistant and your social posts is what the drafts are written from, so nothing contradicts anything else.

New content ideas come from real questions, too: the ones your Assist chat window could not answer, and — if you use Xorventa Social — the public comments your reply agent could not answer. Direct messages are deliberately excluded.

YOU APPROVE EVERY CHANGE

See the issue. See the fix. Then decide.

The screenshot displays the Xorventa AI interface on a dark background. At the top left, the text "YOU APPROVE EVERY CHANGE" is shown in blue. At the top right is the Xorventa AI logo, which includes a stylized 'X' and the text "Xorventa AI" with "AI" in a blue square. Below the header, the main heading "See the issue. See the fix. Then decide." is centered in white. The interface is divided into three main sections. The top section, titled "THE ISSUE" in orange, contains the text: "Your services page has no search description, so search engines write their own." Below this are two side-by-side boxes. The left box, titled "WHAT SEARCH SHOWS NOW" in light blue, contains the text: "Home · Services · Contact · About us · Book online — welcome to our website" and "Written by the search engine, not by you." The right box, titled "WHAT XORVENTA PROPOSES" in light blue, contains the text: "Same-day boiler repair and annual servicing across Delray Beach. Gas Safe registered, no callout fee." and "Written from the facts you approved." At the bottom is a wide box titled "AND NOTHING HAPPENS UNTIL YOU SAY SO" in light blue, containing the text: "Approve it and Xorventa applies it to your connected website. Edit it first if you would rather. Or switch on automatic changes and the ones that qualify are applied without a click — anything that needs a person still waits for one."

YOU APPROVE EVERY CHANGE

Xorventa AI
AI-powered recommendations for the right change, today

See the issue. See the fix. Then decide.

THE ISSUE Your services page has no search description, so search engines write their own.

WHAT SEARCH SHOWS NOW
"Home · Services · Contact · About us · Book online — welcome to our website"
Written by the search engine, not by you.

WHAT XORVENTA PROPOSES
"Same-day boiler repair and annual servicing across Delray Beach. Gas Safe registered, no callout fee."
Written from the facts you approved.

AND NOTHING HAPPENS UNTIL YOU SAY SO
Approve it and Xorventa applies it to your connected website. Edit it first if you would rather. Or switch on automatic changes and the ones that qualify are applied without a click — anything that needs a person still waits for one.

- **Nothing is applied behind your back.** Every proposed change shows the current wording beside the replacement.
- **You can automate the safe ones.** Switch on automatic changes and the ones that qualify apply without a click. Anything that needs a person still waits for one.
- **You can reverse a change. Ask for** a change to be reversed and the reversal is checked against the live page, shown to you first, and refused if it would overwrite newer work.

YOUR NUMBERS, AS THE SOURCE REPORTS THEM

Connect what you have. All of it is optional.

With your permission, Xorventa reads — never writes — your search and traffic figures:

Google Search Console	What people searched for before they reached you.
Google Analytics 4	What they did once they arrived.
Bing Webmaster Tools	Clicks and impressions on Bing. Needs a separate sign-in and a free Bing account with your site verified.
Google Business Profile	How people find you on Maps and in local search.

Every figure is shown as the source reports it — we do not adjust or blend them. Every connection is optional: the audit, the action queue, the drafts and the monthly report all run without any of them, and you can disconnect at any time.

WHAT IT COSTS

Two self-serve tiers, and no setup fee.

	Monthly	Yearly	Grounded drafts / month
Basic	\$39	\$390	Up to 15
Plus	\$79	\$790	Up to 60
Enterprise	Talk to sales	—	Multi-location or higher volume

Plus is the recommended tier. Both include the audit, the prioritized actions and the monthly report.

- **Setup is included.** AI-assisted and self-serve, at no charge. There is no setup fee.
- **30-day free trial.** Connect Google and Bing, run the audit, and see exactly which page changes we would make. The trial includes one report and prepares changes rather than publishing them — subscribe to publish.
- **One free SEO review.** Before you subscribe, a one-time diagnostic of your site you can download. A card is required; the review itself is free.
- **Included in Persona.** Xorventa SEO Plus comes with Xorventa Persona rather than being bought separately.

What Xorventa SEO will not do.

- **It does not rewrite the words on your page.** Xorventa SEO writes page titles and search descriptions. Your actual page copy is yours.
- **It does not guarantee rankings or placement.** Search results depend on many things outside any tool. We improve the quality and consistency of your presence, and we will not promise a position.
- **It cannot publish without a connected website.** Applying a change needs a paid plan and a supported website connection. Anything we cannot publish for you lands in your report with the reason.
- **It will not write from information you have not approved.** If the facts are missing, the draft does not get invented — the gap is reported to you.

Ready to set it up? Part two starts on the next page.

PART TWO

How to set it up

From first audit to an approved change on your live website.

BEFORE YOU START

Have these to hand.

- **Your approved Business Facts.** SEO writes from them, so set them up first. You do not need an Assist chat window.
- **Your website address.** And, if you want changes applied for you, a supported website connection — Wix connects in a click; WordPress connects with an Application Password you create in your WordPress admin.
- **Your Google sign-in.** For Search Console and Analytics, if you have them. Both are optional and read-only.
- **A little time. Most of it is** the audit running while you do something else.

A graphic for Xorventa.ai showing the setup process. It includes the company logo, a list of three steps: 01 GUIDED SETUP, 02 IN-APP HELP, and 03 FREE SELF-SERVICE UPDATES. Below the list is the tagline 'AI-assisted. Business-controlled.' and an image of a woman wearing a headset with the 'Xora' logo, representing customer support.

Xorventa.ai
Agentic Automation for the Future. Today.

EASY TO SET UP. EASY TO USE.

AI help is built into the work.

From first setup to everyday changes, Xorventa helps you move forward without taking control away.

- 01 GUIDED SETUP**
- 02 IN-APP HELP**
- 03 FREE SELF-SERVICE UPDATES**

AI-assisted. Business-controlled.

STEP BY STEP

Setting it up.

Step 1 — Add Xorventa SEO

Add it from Add products in your account. Setup is self-serve and included; there is nothing to schedule and nobody to wait for. You can cancel any time from the SEO card on the Add products page.

Step 2 — Connect Google and Bing

Connect Search Console and Analytics with your Google sign-in, and Bing Webmaster Tools separately if you use it. All read-only, all optional, all disconnectable. Skip this and everything else still works — you just will not see your search figures alongside the work.

Step 3 — Run the audit

Start the audit and let it finish. What comes back is a prioritized list: what is wrong, why it matters, and what to do about it — ordered, not dumped.

Step 4 — Have the fixes written

Choose the findings you want addressed and Xorventa drafts the wording from your approved facts. Read each draft, edit anything you would say differently, and approve it.

APPLYING IT

Step 5 — Put the changes live.

An approved draft is not yet on your website. Applying it is a separate, deliberate step — and you have two ways to take it.

- **Approve each change yourself.** You see the current wording and the replacement side by side, and you decide. Nothing reaches your site until you say so.
- **Or switch on automatic changes.** The ones that qualify apply without a click. Automatic changes start only once Xorventa SEO or Xorventa Persona is paid for, and you can switch them back off whenever you like.

Either way the change is checked against your live page afterwards, and you can ask for it to be reversed — the reversal is shown to you first, and refused if it would overwrite newer work.

AFTERWARDS

Keeping it useful.

- **Read the monthly report.** Plain language, not a wall of metrics: what changed, what it means, and what is still waiting.
- **Work the queue, not the dashboard.** The prioritized list is the product. A few decisions a month is the whole commitment.
- **Feed it real questions.** The things customers ask that your information does not cover become content ideas — answer one and it strengthens everything.
- **Re-run the audit after a site change.** A redesign or a new page is exactly when things quietly break.

Need a hand?

Ask Xora inside your account — she can explain a recommendation, walk you through the next step, or apply a supported change under the permissions you enable. Or start a 30-day free trial at xorventa.ai.
